**SUBJECT: AL FAW GRAND PORT PROJECT – Al Siraq Al Mudea Mine Action Company**

**Contract for the “Engineering Consultancy Services for the New Al Faw Port”  
Supervision for the Construction of the Eastern and Western Breakwaters for Al Faw Grand Port in Iraq.**

Dear Sirs,

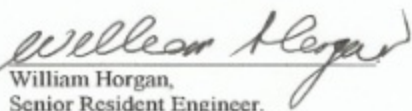

With regard to the above subject, Al Siraq Al Mudea Mine Action Company provided services to the Al Faw Grand Port Project, Phases 1 and 2 (Eastern and Western Breakwater) from April 2013 to September 2014

Al Siraq Al Mudea Mine Action Company undertook the clearance work of the onshore, offshore and intertidal areas that were to be cleared, on both Phases.

We appreciate greatly the high standard of workmanship and also the advice and direction they gave to the Project with regard to Demining and UXO activities.

I would have no hesitation in recommending them for any similar works.

Yours faithfully,

William Horgan,  
Senior Resident Engineer.
